PROPANE CONVERSIONS

**Lower Your  
Fuel Costs,  
Simplify  
Maintenance,  
GO GREEN!**

**EnviroGard** has partnered with John Deere to develop application specific kits to convert select John Deere commercial mowers to propane. **EnviroGard** Propane Conversion Kits help operators save on fuel costs, reduce fuel system maintenance, and lower emissions. **EnviroGard** patented technology provides an optimal balance of power, performance, and fuel economy. Each **EnviroGard** kit is specifically developed for the application being converted and carries a manufacturers warranty.

For more information or to have your John Deere commercial mower converted to propane, please visit your local John Deere dealer or [www.envirogard.com](http://www.envirogard.com).
